

STATE OF SIEGE

Has Been Declared at St. Petersburg by General Trepoff.

A Governor General Has Been Appointed for the Second Time in the City.

St. Petersburg, Jan. 25.—St. Petersburg was declared in a state of siege today. General Trepoff, until recently chief of police of Moscow, has been appointed governor general of St. Petersburg and has taken up quarters in the winter palace. Strangely enough, the only precedent is the case of General Trepoff's father, during the reign of Nihilistic terrorism under Alexander II., and it is also a strange coincidence that unsuccessful attempts were made on the lives of both. General Trepoff is a man of great energy, but the measures he adopted at Moscow for suppressing the student demonstration in December last provoked much resentment and the revolutionists recently condemned him to death.

The aspect of the Russian capital is decidedly more calm. Business, which had been at a complete standstill, has been resumed upon a limited scale. The employees in a few of the smaller factories have gone back to work and the crowds of strikers in the streets are diminished. The troops in evidence are not so numerous as on Monday, and a more confident feeling exists in official circles that the energetic measures which have been inaugurated will insure the safety and quiet of the city.

Beneath the surface, however, the ferment continues and the public nervousness and apprehension as to future developments is still unallayed. Secret meetings of different classes in opposition to the existing order of things were held in various places last evening; but the divergent elements which were suddenly brought together by the tragic events of last Sunday are advancing on divergent plans and no common ground of action has yet been found. In the meantime the police are actively searching out the leaders. Three well-known Russian authors and a prominent editor have been arrested and the prisons are filled with agitators, revolutionists and student orators. Such measures may result in bomb-throwing and terrorism, but the consensus of opinion is that the immediate future actions of the agitators depends on what occurs in Moscow and other large cities of Russia, where the workmen are beginning to strike. Over 100,000 men are out in the old capital of the empire. A telephone message from Moscow reported that there had been no disorder there as yet.

At Kovno and Vilna, where strikes also have been begun, the workmen are following the St. Petersburg plan of marching about the city and inducing or forcing other workmen to leave their employment.

It is not known definitely whether Father Gopon, the leader of the workmen, is in Moscow or St. Petersburg. A proclamation said to emanate from him has been distributed, indicating that he has gone over body and soul to the Social Democrats. The proclamation declares that since the emperor and the emperor's ministers have refused to listen to the people's grievances and fired upon them, the government has outlawed itself so that every man's hand should be against it, and calls upon the people to slay the outlaws and destroy the government root and branch. It authorizes the men to use bombs, dynamite and other weapons, invites students to join and absolves the soldiers from their oath of fealty. The destruction of government property is recommended, but the proclamation requests the followers of Father Gopon to spare private property and sack only shops containing victuals and arms, and urges all to continue the fight until they succeed in obtaining a national assembly.

MILITARY RULE

General Trepoff Given the Power of Life and Death.

St. Petersburg, Jan. 25.—The appointment of General Trepoff, former chief of police of Moscow, to the governor generalship of St. Petersburg was accompanied by an imperial decree announcing the creation of the post of governor general. The incumbent of this office the decree states will be in control of all the departments of administration of the city and government of St. Petersburg with power to demand the assistance of the military and possessing all the

rights of the minister of the interior over appointments to the municipal council and the Zemstvos and also the right to forbid individuals to remain in the city.

The decree, which is addressed to the senate, says: "Recent events have shown the necessity for the adoption of measures for the preservation of state institutions and public security adapted to the extraordinary circumstances of the times."

"On this account we have considered it necessary to create the office of governor general of St. Petersburg on the basis of the provisions of the law prescribing the duties of the chiefs and governors general and of the following resolutions:

"First—The city and government of St. Petersburg are placed under the authority of the governor general."

"Second—In questions where the maintenance of state institutions and public security are at stake all the local civil authorities and all the educational institutions are made subject to the governor general."

"Third—The governor general has the right, with the assent of the minister of the interior, to enforce measures sanctioned by article 140 of the censorship statute."

"Fourth—Apart from the right of making obligatory the regulations in accordance with the law providing for stricter maintenance of order, the governor general will be empowered to make obligatory the regulations affecting objects or property of any kind in the interest of public tranquility and order in his jurisdiction, while in cases of violation of these regulations the penalties and method of procedure prescribed in Article 15 and 16 of the law for the stricter maintenance of order are to be adopted, whereby the governor general can commission the governor and prefect of St. Petersburg who are subject to him to deal with said cases."

Much Depends Upon Moscow.

London, Jan. 25.—It is firmly believed and confidently stated by many Russians in London that the army will quickly become disaffected. These Russians say that much depends upon Moscow, which is the true center of the revolutionary spirit, and assert that a declaration of independence will be issued at Moscow, probably at a meeting of Social Democrats there tomorrow to celebrate the 15th anniversary of the foundation of Russia's first university.

Finland Is Rising.

Helsingfors, Finland, Jan. 25.—Thousands of workmen joined in a demonstration here last night. Assembling on the high steps of the Nicolai cathedral they paraded the streets until midnight, waving red flags. The windows of public houses, hotels, breweries and a number of newspaper offices were broken. The police interfered rather late, arresting fifty of the workmen.

Reform Leader Indorsed.

Moscow, Jan. 25.—The municipal council, by a vote of 113 to 10 re-elected Prince Galitzin mayor of Moscow. The prince is a prominent leader in the local reform movement and resigned recently on the issuance of the government declaration condemning the reformers' propaganda.

WATCHING ACTION

Temperance People Say Legislature Will Make Bill a Law.

If the proposed amendment to the Nichols law is passed by the legislature, as now seems probable, it will have an effect on the saloon business in Rushville. The action of the legislature is being closely watched by both temperance people and those interested in the saloon business, as it is realized that the passage of the amendment will be hard on the saloon business.

The amendment provides that a remonstrance against the granting of a license for the selling of liquor, shall stand against any applicants in the ward from which it is presented for a period of two years. The amendment is practically a local option law, and leaves the question of saloons to the voters of each ward or township.

In the past, when a remonstrance has been filed against granting a license to any one saloon keeper, it has had no effect on others in the same ward. In many instances licenses have been applied for by parties to sell in the same rooms which were used by those to whom licenses were refused. The proposed law simply makes a remonstrance against one stand against all applicants in the same ward or township.

TRUTH WILL OUT

Gen. Stoessel's Halo Diminishes as the Facts Become Known.

No Man Who Ever Held a Responsible Command Less Deserving Title of Hero Than He.

London, Jan. 25.—The Times correspondent at Pekin, who has returned from a visit to Port Arthur, describes the impressions he gathered there and says: "Without seeing them nobody could form any idea of the stupendous strength of the forts or the incredible heroism displayed in their capture. No foreign officer is able to explain the reason for the surrender of Port Arthur. Those who have seen the condition of the fortress believe that no more creditable surrender is recorded in history. There were 25,000 able-bodied men capable of making a sortie, hundreds of officers all well nourished, and plenty of ammunition, the largest magazine being untouched and full to the roof with all kinds of ammunition for naval guns. There was, further, ample food for three months, even if no fresh supplies could be received, and besides, the waters are teeming with fish. There was an abundance of wine and medical comforts and large quantities of fuel of all kinds. The stories that the Red Cross buildings were wrecked by the Japanese fire are admitted by responsible residents to have been pure fabrications to excite sympathy. All accounts agree in condemning the majority of the officers, who feared the failure of comforts more than of ammunition, and agreed that no man ever held a responsible command who less deserved the title of hero than General Stoessel."

TRIAL BEGUN

Charles F. Sherman is Facing Court for His Life at Hamilton, Ohio.

The case of State of Ohio against Charles V. Sherman, formerly of this city, indicted for the murder of his wife, Mayme C. Sherman, came up for hearing in the criminal court at Hamilton, Ohio, Tuesday morning.

Sherman, smooth shaven and neatly dressed sat in court in the rear of his counsel, and watched the proceedings with grave interest. The defense filed a motion challenging the array of jurors on the ground that a venire had subsequently been drawn but the motion was overruled and the tedious work of settling a jury was begun. Many were excused for cause and it was evident that the first venire of 36 names would be exhausted and no jury secured. It was not probable that a jury would be selected on the first day.

A large number of witnesses are to be examined besides the depositors of a number of witnesses in Indiana and residing at Elwood, Kokomo, Anderson and Indianapolis which will be introduced. The trial of the case will be protracted.

PECULIAR CASE

Man in Jail for Failure to Pay Alimony He Paid Eleven Years.

Daniel Wagner is in jail at Kokomo having been arrested near Greentown for failure to make payments of alimony.

Wagner's story is out of the ordinary. Fourteen years ago when divorced he was ordered to make payment of \$3 a week for his child. For eleven years he paid the sum as regular as Saturday came. He was again married, but recently his second wife died and he became a wanderer. He says he is a pauper and looks it. The son, Wagner claims, for whom he has to pay money, is now making more money than the father.

RURAL ROUTE EXPENSIVE

The Government Has no Thought of Abandoning Them.

It is now apparent to congress that rural free delivery is the most expensive luxury the government is supporting for its citizens, but there will be no backtracking. The postal officials are inclined to believe that the revenue derived from the rural routes will decrease as the years go by. They base this opinion on the fact that, as the telephone and electric cars introduced in the rural sections the use of the mails as a means of communicating decreases. Some special inquiry made recently shows that in localities where farmers are universally supplied with telephones and where trolley lines are conveniently near at hand, but little mail matter originates. The people do nearly all their communicating by telephone or in person. The volume of ignoring mail is increasing on all rural routes, but the revenue derived from it is credited to the postoffices in larger cities and towns. Indirectly, of course, it is the result of the extension of the rural service, but the statisticians at the departments do not give the rural routes any of the credit.

IN MEMORY OF M'KINLEY

Carnations Will be Worn by Many People on Next Sunday.

Next Sunday January 29th, is McKinley Carnation Day and a general observance of the day in a more complete manner than ever before is expected, for several reasons. In the past two years which the day has been observed, not a as legal holiday, but as a memorial to the last of the martyred president, carnations have been worn by many. The general observance of the day, however, has been neglected.

The probabilities are that Carnation Day this year will be observed by the majority of the people and the carnation promised to be an important and popular flower on that day. It happens that Carnation Day falls on Sunday this year and this fact will make the wearing of the flower more general than in the past.

THE EASTERN EXTENSION

Of the I. & C. Will be Rushed Forward in a Few Weeks.

The Connersville News says it has been learned from a reliable source that occupants of houses that have been purchased by the I. & C. traction line within the city of Connersville, have until March 1st in which to vacate, and that by April 1st, the ground will be cleared ready for constructive work on the line. The company has had inquiries as to the cost of buildings as they stand, with privilege of moving them to other lots and through an answer received, the above facts were ascertained.

NO DISCOUNT ON GOWDY

Shelbyville Republican.

The Philadelphia Inquirer is unkind enough to say that "Hon. John K. Gowdy has been good during his term as consul in Paris but his friends are unwilling to guarantee his conduct if he is turned out."

There will be no danger that Uncle Jack will cease to be good when he is out. He was good before he got in and he is the kind of a man that is always the same goin' or comin'.

THE LIQUOR LAWS

Will be Amended if Senate's Action is Accepted as Final.

The Passage of the Bill Will Give Temperance People Cause For Joy.

Indianapolis, Jan. 25.—The temperance forces are jubilant over the test vote in the senate on the Moore bill making the filing of signatures to a remonstrance prima facie evidence of their genuineness and placing the burden of disproving them on the applicant for license. The twenty voting for indefinite postponement of the bill may be regarded as those who are standing pat against any change in the Nicholson law. The temperance forces now feel the majority in the senate is with them.

A bill by Representative Seifres authorizing the governor to obtain a loan to cover the deficit in the state treasury without raising the tax levy, has caused considerable amusement among the Republican members, but Seifres is very much in earnest. It is the intention of the Republicans, he believes, to increase the tax levy, and he don't want the people burdened any more than now. The senate has taken a whack at the men who favor shooting live pigeons at trap shooting tournaments by concurring in a report providing penalties for shooting the live birds in such manner. It has also concurred in Senator Parks' bill forbidding the sale or manufacture of cigarettes in Indiana.

Bills of general interest in the house follow: To tax stock of national banks in towns and cities where they are located; regulating the construction of theaters and public halls to protect the public from fire (this bill was prepared by State Factory Inspector McAbee); to give treasurers 6 per cent for collection of delinquent taxes; to prohibit the sale of liquor to intoxicated persons; to provide a monument to Indiana soldiers killed at the siege of Vicksburg; to compel railroads to establish flag stations in cities of from 2,500 to 3,500 population; providing for the payment of annual salary to county assessors instead of paying per diem; to compel patent medicine vendors to place formulas on wrappers.

Bills of general interest introduced in the senate follow: To make brakemen and engineers liable for obstructions (the conductor alone is liable now); forbidding public officials from accepting railroad passes; providing for one public notice to be printed in the "party organ" and another notice in a paper selected by the county auditors or treasurers; legalizing equalization of taxes by state board of tax commissioners; permitting a writ of habeas corpus to be issued in county where the prisoner is convicted; providing for an appropriation of \$150,000 for a state hospital for epileptics; compelling county sheriffs and clerks to turn into the county fees collected by them for attending circuit or commissioners' court; empowering the attorney general to employ special attorney to prosecute claims of the state against the federal government in reference to money due the state for sale of swamp lands and providing for the payment of 25 per cent of the collection to the special attorney; providing for the eradication of the Canadian thistle; providing for an inquest fee of \$10 for coroners in counties of less than 100,000. The fee is now \$5.

ONE HUNDRED DOCTORS.

Will Visit the Legislature and Urge Upon it the Necessity of Certain Legislation.

The doctors of Indiana are so much interested in the question that is now being agitated in regard to a State hospital for consumptives that a committee of one hundred is being appointed by the different medical societies of the State, and the committee some time soon will ask for an audience in the assembly halls.

The doctors are in favor of a hospital for the treatment of consumption as they are also in favor of an asylum where epileptics may be treated. The physicians of this committee of one hundred will ask permission to address the legislators on the question of tuberculosis.

TOUR OF EUROPE

A Fine Trip for a Party of Fifty Women.

Elizabeth Norvell, of Shelbyville, has entered the "Tour of Europe" contest of the Cincinnati Commercial Tribune from this district, composed of Rush, Fayette, Union and Shelby counties. This contest provides for a journey from the home of the winner via New York through Ireland, Scotland, England, Wales, France and return, with all expenses paid. The trip will consume five weeks and starts from New York July 1st.

This is the same kind of a proposition as the World's Fair contest of the Commercial Tribune, which sent Miss Alma Odear of this city to the St. Louis Fair with all expenses paid.

So far we have not heard of a contestant in Rush county. Is there no lady in this county who desires to make an effort for this grand trip to Europe?

M'KINLEY SHAFT

Its Construction Will be Begun at Canton, Ohio, June 1.

Harold VanBuren Magonigle, architect of the McKinley monument to be erected in Canton, has announced that construction will begin about June 1. The shaft will require two years for completion.

"The monument will be of granite, as plain as was the life of the great man to whose memory it will be built," said Magonigle. "The whole monument will be circular, so that from whatever direction approached it will appear the same. This form is especially adapted to the site of Monument hill."

"There is to be no crowning feature. A statue of McKinley in bronze will be erected at the head of the steps that lead to the tomb. The monument will be fifty feet in diameter. There will be no windows in the sides. The light will be from the dome."

THEY WANT THE QUAILS PROTECTED

Believing that the quail is a great friend of the farmer and desiring that the game shall be kept from utter extinction, the farmers of Henry county have taken a decided stand for the stricter game laws. In the resolutions adopted by the Farmers' Institute held at New Castle this week is a section as follows: "We believe that the game laws concerning our feathered friends, the birds, are not sufficiently enforced, and we recommend that more thorough and determined efforts be made in the enforcement of these laws. And we would ask that the legislature enact a law prohibiting for at least ten years the killing of that favored friend of the farmer, the quail, which has on account of the cold winters and the wholesale slaughter by hunters become nearly extinct."

Even if a boy doesn't get a ride, he covers a great deal of ground while chasing the wagon.

A biography of the late Senator Marcus A. Hanna is being prepared and will soon be published.

MARDI CRAS, FLORIDA, THE SOUTH

Special Outing for Indiana Tourists via Pennsylvania Lines.

An exceptionally favorable time for a trip South is the special outing for Indiana tourists to be given this midwinter, offering an inexpensive jaunt for health and pleasure seekers to the famous resorts of Florida and the South, and also including two days' participation in the noted Mardi Gras festivities of New Orleans. A solid vestibuled Pullman train will leave Indianapolis Union Station 7:00 p. m. on February 27th over Pennsylvania Lines. Points of interest along the route include famous battlefields—Lookout Mountain, Chickamauga, Atlanta, Savannah, the line of Sherman's "march to the sea." The tour embraces Ormond, the fashionable winter resort; St. Augustine, with its ancient Spanish battlefields; Pensacola, of naval interest; Pass Christian, "the Newport of the South"; Mobile, Birmingham, Nashville, with ample time for sight seeing. Two days will be passed in New Orleans during its great Mardi Gras celebration. Eleven days in the sunny South, away from the ice and snow of the North, and the cost including Pullmans, only \$5. As the sleeping car berths should be reserved sufficient time in advance, it is better to communicate early with W. W. Richardson, Assistant General Passenger Agent, Indianapolis, who will answer all inquiries in full.

TEXAS FRUIT LANDS

Produce Early Crops Which Bring Fancy Prices.

In Texas they begin shipping berries in April, tomatoes in May, Peaches in June, bringing fancy prices up North.

The growing season is much longer than in the North—a chance to make two and three crops, reducing the expense of "getting through" the winter.

Fruit and truck lands along the Cotton Belt Route are very cheap as yet—\$10 to \$15 an acre unimproved. When put to orchard or truck they can be made to yield \$100 to \$200 per acre and more.

Besides, it's an ideal climate—no long cold winters. Write for booklet on fruit and truck growing.

The officers of the Hagerstown Fair Association, tired of managing fairs, have closed up the affairs of the association and quit. They will turn over the property to any new organization which may be formed. The buildings are in good condition, and the track is one of the best in the State. Rushville is not the only town suffering from the lagrippe epidemic. The epidemic seems to be general. At Peoria, Ill., over 2000 cases are reported. Whole families are prostrated and in many business offices and stores the office work has been crippled. The Republican office has three grip patients among its office force, and is somewhat crippled on account of it. We ask our readers to be indulgent.

The Little Homestead.

The company which comes to the city opera house on Friday, January 27th, presenting the beautiful emotional rural drama "The Little Homestead" headed by William Macauley, has been selected with a care as to the fitness of the individuality of the characters to be sustained. The result is manifested by the praise of the public and press. In such capable hands the beautiful story loses none of its refreshing simplicity nor lacks nothing of sympathy or force in its appeal to human interest. It is by the author of "The Minister's Son" well known to be W. B. Patton. Seat sale at Hargrove & Mullin Druggists.

APPLES AND MILK

In these days when a proper selection of diet is essential to health one may note all he hears without committing himself to any prescribed form of diet that does not seem reasonable.

The agricultural sections have just issued a bulletin on the food advantages of milk and apples, not only for children but for grown-up people as well, which not only looks reasonable, but has the advantage of cheapness.

The percentage of solids and water in apples and in milk is almost the same, apples being 85 per cent. water and milk 86 per cent. It also happens that there is more sugar in apples and more acid in milk.

It is therefore claimed that a diet of milk and apples is the most wholesome and well balanced to be found.

As both contain much potash they are the best food for brain, bone and muscle nourishment, while their effect on the nerves is soothing.

The cream removed from milk lessens the fat percentage, but skim milk is sometimes best of all.

In eating apples the skin should be eaten, the ash contained in appleskins being valuable to the system.

Taken altogether, apples and milk seem wonderfully adapted to supply what the system most craves and furnishes a cheap digestible and nourishing combination. Nothing could be better than a glass of milk eaten with apples.

AMISH COLONISTS

Indiana Gaining Large Numbers of Substantial Settlers.

Milford, Ind., Jan. 25.—Many Amish farmers from Illinois are disposing of their farms in that state and are investing in Kosciusko county soil, where a colony was recently established. Over thirty families have already settled here, and twenty-five more are preparing to come within a week or two. Their Illinois farms readily sell at from \$125 to \$140 an acre, and they are reinvesting in Indiana land at an average of \$90 an acre. These people are well-to-do, and they belong to what is known as the Progressive branch of that denomination; their mode of dress being no different from that of other people in their vicinity. As the result of this demand for Kosciusko county farms the value of real estate is advancing.

The Troubles of the School Teacher.

The country school teacher has her own troubles. An item from the Oimaaron, Kan., Jacksonian tells of a new trouble: "A teacher in a country school took an unruly pupil across her knee and paddled him until his pants actually smoked. This is no joke. The boy had a hip pocket well filled with matches which ignited under the pressure of the paddle, and a small conflagration was only averted by pouring a dipper of water in his pockets."
